

Svenson Chair Testimonials

The following testimonials were sent directly from patients to
Svenson USA Director of the Americas, Les Steinmetz

Names have been changed to protect privacy.

Good morning Les,

Gene's symptoms are improved since the last treatment 🙏

Jenny has reported that her face is not red anymore. Her nose always looked a bit purple. It was very strange and going on for the last couple of years.

I am still feeling great! I have noticed my skin tone is also less red.

I am also feeling great. Before the treatments I was pretty much lethargic.

I got some blood work back from my OGBYN that was taken two months ago. I'm hoping there was a glitch or an anomaly, but my prolactin was at 300. That would explain my exhaustion that I had been having. I'm repeating the blood work this week before I do an MRI. Curiously, I had high prolactin when I was 28, which resolved. So, I'm hoping for the same. EBV caused it. It could very well have been EBV again this time. But what I am wondering is did this chair put my EBV into remission? Hmmm? Pretty AMAZING

GOOD MORNING LES,

Thank you for the weekly Shabbat messages 🙏 You are a beautiful writer with an equally beautiful heart. I am still feeling incredible and going strong. You saved my life Les. 🙏 I'm so grateful to feel good. Not just pain free, but good! I haven't felt this strong and resilient with this much energy in years.

The Svenson chair will be part of my on-going health maintenance. My result seems nothing short of miraculous. I am so much stronger and productive. I have been so busy and to my amazement I have not had the recoil I would normally expect after a full day of physical work.

I have so much gratitude for this gift where I least expected one. 🙏 I am able to do things that were so difficult for me just a few days ago. I was actually feeling quite hopeless with the pain and disability that I have lived with for what became years. As you witnessed I had immediate relief after my first session and since my second treatment a few days ago, I am pain-free! 🙏

I have my vitality back which I thought I had lost forever. I am blown away that this healing is from a chair and a healing modality that I never heard of before. This is such a blessing and I want to share it with everyone suffering from chronic pain.

The sobering reality is to think that if I had not been introduced to this device, I would not be feeling good right now. I feel like I have my life back and I feel hopeful again! It's just amazing. I would actually compare this to the relief of receiving the an epidural. The pain resolved and suddenly my body is light again. I would not have believed this is possible. I don't want to jinx it!

Yesterday, I worked in my store on my feet for 9 hours. I haven't done that in 5 years. I had so much fun connecting with my clients again. It was a bit embarrassing, because I could not control my eyes from leaking tears of gratitude. :-)

What I thought was going to be chronic pain forever is gone. My body is healed of low back pain and it has affected my whole system positively from my neck to my shoulders and elbows.

Good Morning☀️

Was on my feet all day on my concrete floors doing housework and thought that I would have the usual wrath on my body post “feeling well”.

I am doing great this morning! It’s amazing.

I swear you saved my life. I’m definitely making the Svenson chair part of my wellness protocol and sharing with all of my friends. 🙏

Usually I would be hobbled for at least a day. I am feeling amazing.

Hi Les!

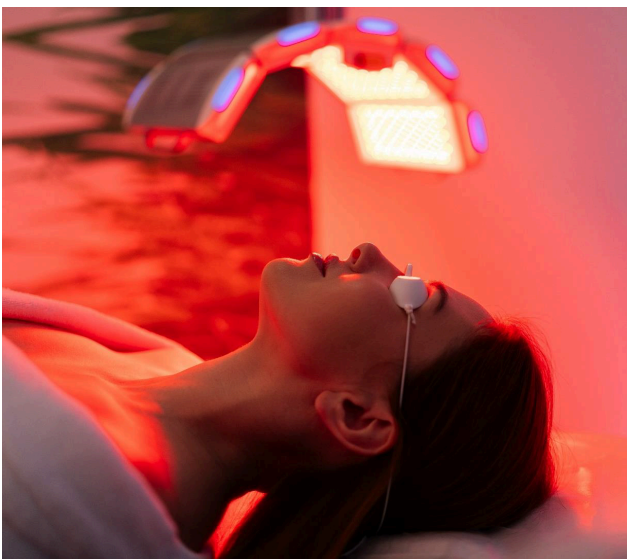

I just want you to know that Ben is actually feeling some relief!

Thank you so much Les . I’m so grateful to you for this help with my husband. Things were really feeling hopeless, and this is the first time he has ever said that he has started to feel a little bit better.🙏 he has now started complaining about a pain in his foot, which is just awesome.

It’s music to my ears!

I feel great! I can't wait for the sun to come up, so I can get back to work. Thank you from the bottom of my heart Les. 🙏🌸 Thank you.

I swear the bags under my eyes went away!!

Just checked my eyes again.

That chair definitely helped.

I will tell all my ladies.

Hi Les!! Wow

I have been so busy reorganizing my entire household that I haven't had time to update!

Jumped out of bed and just started taking care of business this morning. No need for my hot rosin salt bath.

Just been feeling great all day, I hope I'm not overdoing it!

I think you have the fountain of youth there!

Hi Les!

I'm feeling even more improvement and range in my lower back with everyday.

I am giddy waking up and roaming my house in the morning!

Thank you for your beautiful messages,

Les. I continue to feel so good. It's incredible. (we bought 15 sessions)

April and I are both amazed by the unexpected results.

I am forever grateful.

We would love to take you, Maxi and Olli out to dinner. Have you been to Mulholland?

He was doing better yesterday,

and his hemorrhoids had popped back in, but then after he drove to Malibu and back, they were back out!

He definitely wants to do another treatment.

Thank you Les.

I'm sorry. The last month has been a whirlwind.

And so positive with my back feeling so much better.

I send you a blessing everytime I do something that would have caused me hideous pain before!
